PERSONAL

I am a self-driven individual with over 6 years of development experience, leading development on multiple key business projects throughout my career. I have a logical mind with a practical approach to problem-solving and a drive to see deliverables through to completion. I am a quick learner. I specialise in T-SQL, but also self-develop my knowledge outside of work. I have experience using many different languages, including C, C#, HTML, JavaScript, Python and VBA.
